

# SEAN MILLER

sea.miller@outlook.com · 4725 SE Division St., Portland, OR 97206 · (480) 925 - 2312

## ASSETS

- Experience in multiple programming languages, including Python, C#, JavaScript, and Java, through implementation of OOP concepts and strengthening of programming fundamentals
- Well-organized, including experience with Git as a tool to manage and collaborate on source code
- Ability to work well in a team through effective collaboration and professional communication skills
- Active learner and self-motivated, regularly working on new projects, such as reverse engineering assembly code and developing an original programming language, to gain new knowledge and skills

## EDUCATION

05/20

**PROGRAMMING AND SYSTEMS ANALYSIS (AAS),** GLENDALE COMMUNITY COLLEGE, AZ

4.0 GPA. Course competencies include programming in Java, C#, HTML5 web development, MySQL databases, business communication, and the Microsoft Office software suite.

## EXPERIENCE

04/21 – PRESENT

**PRIVATE AP CALCULUS TUTOR**

Provide 1-on-1 tutoring for high school students in AP Calculus AB, assessing areas of weakness, then developing and implementing strategies to address them until success is achieved.

09/20 – 04/21

**MATHEMATICS TUTOR, MATHNASIUM**

Math tutor for children in elementary, middle, and high school. Required strong time management in a fast-paced environment working with multiple students at once.

01/19 – 09/20

**LIBRARY PAGE, PHOENIX PUBLIC LIBRARY**

Provided quality customer service by helping library patrons find materials and answer questions. Adapted quickly to new policies and procedures required due to COVID-19.

09/19 – 07/20

**CUSTOMER SERVICE VOLUNTEER, DESERT MISSION FOOD BANK**

Guided food bank clients through the market, responding to individual needs in a fast-paced environment to ensure a positive experience for each client. Volunteer position.

04/18 – 12/18

**BIG BYTES VOLUNTEER, PHOENIX PUBLIC LIBRARY**

Aided children ages 6 to 13 as they learned basic coding skills. Helped explain coding concepts and assisted them through debugging their programs. Volunteer position.
